

CONSERVE WATER!

4 ¡AHORRE AGUA!

Save water and money with a “Smart Irrigation Controller”

Ahorre agua y dinero con un “Regulador de Riego Inteligente”

Through a cooperative financing program, the City of Cathedral City in partnership with DWA and CVWD is offering these controllers for a significantly reduced rate to Cathedral City residents. These so called “smart controllers” self-adjust every day to match the weather.

Por medio de un programa cooperativo financiado, la Ciudad de Cathedral City en sociedad con DWA y CVWD esta ofreciendo estos reguladores a un precio significamente reducido a residentes de Cathedral City. Los llamados “reguladores inteligentes” se

ajustan solos todos los días para igualar la temperatura.

Did you know that setting your controller in the summer and forgetting to lower throughout the cooler month's wastes precious water?

¿Sabía usted que ajustar su regulador en el verano y olvidar disminuir el nivel del agua durante los meses mas frescos desperdicia agua preciada?

This program allows you to sit back and relax while your controller saves you water and reduces your monthly bill.

Este programa le permite sentarse y relajarse mientras su regulador le ahorra agua y reduce su cuenta mensual.

How does the controller work?

¿Cómo funciona el regulador?

The controller contains historical information for different regions of the United States within its memory. During the installation of the controller you enter your region into the controller. The controller will adjust itself from there saving the owner time, money and water.

El regulador contiene información histórica para diferentes regiones de los Estados Unidos dentro de su memoria. Durante la instalación del regulador, usted ingresa su región dentro del regulador. El regulador se ajustara y desde ese momento ahorrándole tiempo, dinero y agua.
