

Save water and money with the Smart Irrigation Controller

Smart, weather-based irrigation clocks automatically adjust your irrigation system's run time based on historic weather data. This reduces the amount of water in the cooler months and increases the amount in the summer.

Coachella Valley homeowners who do not manually adjust their irrigation controllers and switch to a self-adjusting system can expect to cut their water usage by an average of 30 percent.

Conserve Water! **Let's make every drop count!**

CVWD and DWA customers, who are in good standing, can have the new Smart Irrigation Controller installed on their property at no cost to the customer.

For more information or to sign up for the program contact:

If you are a Desert Water Agency (DWA) customer:

www.dwa.org/controller

(760) 323-4971

1200 Gene Autry Trail, South Palm Springs, CA 92263

If you are a Coachella Valley Water District (CVWD) customer:

(760) 398-2651

75-525 Hovley Lane East, Palm Desert, CA 92260

Ahorre agua y dinero con Smart Irrigation Controller (Regulador de Riego Inteligentes)

Relojes inteligentes para regar basados en el clima, automáticamente ajustan el tiempo que su sistema de riego regara basado en datos históricos del clima. Esto reduce la cantidad de agua durante los meses de clima fresco y aumenta en el verano.

Proprietarios en el Valle de Coachella cual no ajustan los controles de riego manualmente y no hagan el cambio a sistemas autoajustables pueden anticipar recortar su uso de agua por un 30 por ciento.

¡Conserve Agua! ¡Hagamos que cada gota cuente!

Cleintes de CVWD and DWA, cual están al día con su cuenta, se les puede instalar un Smart Irrigation Controller en su propiedad sin costo al cliente.
